SWPower

LED module for quick installation

HHX-911FA05-12V

OSRAM   CREE

V 160°
Beam angle

CE   RoHS   c(UL)us
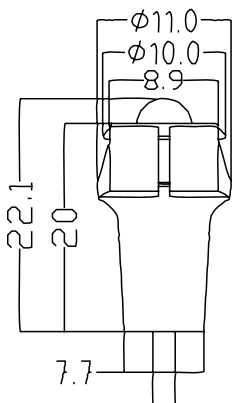

CQC   SMD   [battery]   IP66   2 YEARS

Description

- Using a 5mm super bright LED chip,
  less power consumption at increased brightness

- Glue+PVC case provides more reliable protection against moisture

- For spot lighting of logos, pharmacy crosses, corporate ones logos

- UV protection, waterproof, anti-corrosion,
  protection against oxidation, which extends the service life of LEDs.

- Each pixel can be cut one at a time

- It is possible to use the controller to create dynamic effects,
  which makes the sign more visible

- Voltage 12V, easier to install compared to 5V

Characteristic

Corps	PVC case + glue
Body color	Transparent blue
Power	0.12W
Voltage	DC12V
Current	9mA
Quantity of LEDs	1
Color	red, yellow, blue, green, white
LED diameter	Φ5mm
Glow angle	160°
The amount of lm	12-15 lm/pc (white)
Degree of protection	IP66
Quantity in the chain	50PCS

Size
